## About us!

Foodlink is a Rochester-based nonprofit dedicated to ending hunger and building healthier communities. We serve as the hub of the emergency food system across a 10-county service area. As a leading public health organization, Foodlink administers many programs and initiatives that address both the symptoms and root causes of food insecurity and poverty.

We provide food assistance through the safe storage and distribution of emergency food to our network of

food bank members and community partners. We build healthier communities through innovative programs that create new access points to nutritious foods and empower people to make healthy choices. We drive change through bold career empowerment initiatives and advocacy for a more just, equitable food system.

## OSB Ciderworks

We are an Upstate NY craft ciderworks, operated by siblings Elise and Eric Smith. Our name pays homage to our father and his late uncle. Back in the day, they hid their homemade hard cider from Aunt Bobby, in stumps. The phrase “let’s go blow up some stumps” became code for backyard swilling because the cider was so strong it could blow up stumps. We make a variation of this cider in-house and think fond thoughts of Uncle Charlie every time we talk about it. We utilize NY apples, as well as other local ingredients, to ferment tasty libations.
